Time:  
9:00am daily

## WELCOME TO NOHIL

The Annual Scientific workshop of National Orthopaedic Hospital Igbobi, Lagos has been an annual event for many years.

The main objective is to educate the public and healthcare providers on topical issues. "OCCUPATIONAL INJURIES" the theme for this year has been carefully selected by our Educational Advisory Committee to address this public health problem. The committee had observed that occupational injuries have been on the increase in recent times in view of the high incidence of poorly trained casual labour.

The target participants include working class, organized labour, union leaders, policy makers in the industries/government and Health care providers.

The annual scientific workshop committee invites you to the beautiful city of Lagos to participate in the discussions to be led by seasoned experts, who have been involved in the management of occupational injuries.

We also invite stakeholders such as the organized labour, human resource managers, pharmaceuticals, manufacturing industries as well as the general public to exhibit their products and services at this year's workshop.

Lagos is blessed with beautiful beaches and tourist attractions that any visitor should explore.

On behalf of the Local Organizing Committee (LOC), welcome to the National Orthopaedic Hospital Igbobi, Lagos – the premier Orthopaedic hospital in the West African sub-region.

### Dr. M.K. Chira
